Water Standby Fee Waiver Letter

In accordance with our City Council's decision on July 25th, 2023, regarding the Water Standby Fee, please be advised of the following:

The water standby fee is charged each year, to each unique city parcel property landowner, regardless of the number of parcels owned, as long as the method of holding title is the same. A "PARCEL PROPERTY" is defined as: a piece of real estate, usually resulting from division of a large area of land. It can range in size from a small lot to a gigantic ranch; In real estate, a plot is a tract or parcel of land owned or meant to be owned by some owner(s). The landowner may be subject to more than one water standby fee if the landowner owns more than one parcel as a title holder of different categories of landowner units. For example, a landowner holding a parcel in joint tenancy, another parcel in partnership, and a third parcel as sole owner is subject to three water standby fees.

If you believe you have been levied a fee by mistake, please complete this form and attach copies of all your tax bills with the Assessor Parcel Number (APN) for which you are appealing.

Your Name: _____

APN: _____
